550% GROWTH FOR LINDI'S BEAUTY SALON

LINDI'S BEAUTY SALON

Lindi the founder of Lindi's Beauty Salon was affected by the pandemic like everyone else. She was stuck between a rock and a hard place, with no online presence, and desperate for new clients after the first hard lockdown! She realised she need to do something, something bold, if she wanted to survive.

She's been burnt before, however, after losing half her client base during lockdown,

she had her back against the wall and had no other choice but to give our relationship a chance.

Not only did we manage to help her bring back clients she hasn't seen in years, but we added a whole new array of clients to her database.

Lindi grew by an average of 38 new clients per week and over 100 new clients a month!

CASE STUDY 2

400% GROWTH IN 6 MONTHS!

PHOERA COSMETICS

Mario and his team and Phoera Cosmetics have been doing their marketing themselves up until 2021.

In Feb 2021, they decided it was time to step things up a bit. They found us online and decided to give the relationship 90-days.

In a very competitive industry, naturally, the online store took some time to gain traction.

However, after testing a few different strategies, we cracked the code for Phoera Cosmetics.

Six months later, we've managed to help them grow their online business by over 400%!

CASE STUDY 3

500% GROWTH IN 6 MONTHS

LET'S BREW

Neil from Let's Brew reached out to us for the first time in February 2021.

After chatting to one of our consultants, he remained sceptical.

His previous agency was full of empty promises, which made him feel anxious and extremely nervous to commit to our services.

After giving it some thought, he decided to bite the bullet!

Neil's business grew by 40% in the first month. Then we doubled the growth in months two and three.

After six months, we've helped Neil grow Let's Brew by over 500%!

600% GROWTH IN 12 MONTHS

NUTRI-CON

In 2019 NutriCon had little to no online sales.

Kyle, their Marketing Manager, was wearing all the hats in the marketing department.

With limited time in the day. He wasn't getting to everything that was really needed to grow their online department.

That's when they decided that it's time to reach out to a growth partner.

Kyle will tell you... It wasn't smooth sailing from the start. It took some time to get things of the ground!

However, after 3 months we started breaking even. And, after 6 months the online store took off. Fast-forward 12 months later.

Nutri-Con's online sales have increased by over 600% compared to the year before.

CASE STUDY 5

400% GROWTH IN 6 MONTHS

MEAT THE FARMER

Zandri and Willem (husband and wife) resigned from their 8 to 5 jobs, packed their bags, and moved to Gauteng to pursue their dreams as entrepreneurs.

Meat The Farmer offers the freshest and most prime cut meat directly to the public! And the public loves it!

Soon after starting the business, Zandri and Willem knew that they were onto something good.

A few months later they reached out to us and once we understood the business model and heard the amazing feedback from their customers, we knew we needed to help!

And the rest is history.

Fast-forward 6 months they managed to grow their online revenue by over 400%!

ASCOT BEDS & FURTNITURE

Leopold is the founder of Ascot Beds and Furniture which is a brick and mortar retail business.

In 2020 the lockdowns almost wiped his business from the face of the earth.

That's when Leopold realised it's time to launch an online division to help him diversify his business.

After launching his online store Leopold and his team worked with a few agencies with the objective of growing the online division.

Unfortunately they didn't have much luck. However, soon after their second attempt with an agency they got introduced to us through an existing client.

We've managed to take Ascot Beds to whole new heights thanks to our eCommerce growth strategies!

AFRICAN ARTWORK

Meet Kerry! Before meeting us she got burnt by her previous agency. (Most probably just like you).

Stressed out, anxious, and frustrated, she naturally decided to try and do everything herself.

Only after soon realising that it's just way too time-consuming!

That's when she decided to look for external help, again!

Kerry was a bit sceptical. And rightfully so! Because today, every single person that reads marketing book becomes a self-proclaimed "marketing expert". None the less... Kerry met us and decided to give the relationship a go!

10 months later, her business is generating 600% more revenue!

If you really want to know what these guys are all about I suggest you take the time and read this review ... 🙌

Rewind 4 months ago ... we had a lot of happy customers and an excellent product but we were just not getting to the next level. We have been doing business for 5 years but just did not show any more growth.

Fast forward to today, it's almost the end of Jan in a brand new year. Sales have been up 300% thanks to these guys. We had a record breaking month (3x what we would consider a good month before teaming up with V8).

Calling these guys a social media marketing agency would just not be fair. V8 changes your business, gets you in front of the right audience, fast and effectively.

These guys changes the lives of everybody working for your company.

Positive: Professionalism, Quality, Responsiveness

I started using V8 Media back in March. Initially I was skeptical and not convinced I would get the results they claim they have received for their customers. They asked me to join for a 90 day trial. We saw an increase in sales from our previous high months turnover during the period, not massive but the sales were there. I also could see the amount of work the team was putting in to design creatives, create ad copy and provide weekly and monthly reports. They helped me implement so many changes that I did not even know how to do. Laurah leads my dedicated team as account manager brilliantly.

She is an essential part of my business and my strategy to the business. We are happy to continue to use V8 Media.

As a small business owner, it can be a scary and daunting task to be an 'expert' in everything. You **NEED** to align yourself with people and business that **WANT** to see you succeed and not just take your money.

If your looking for a strategic partner thats **PASSIONATE** to see you succeed then V8 is definitely the agency for you! I started with the coaching program, and quickly saw the value, and decided to **UPGRADE** to the done-for-you program (and it is worth every cent - if not more).

If you are **SERIOUS** to **SCALE** your ecomms brand then take the plunge. I've been a mom, running a small business for 4 years, and V8 has helped my revenue double in just 30days.

You will **NOT** be dissapointed!

There's nothing I can say that hasn't already been said by other reviewers, so "ditto". A pro-active, organised, no-BS team and approach to what they do, with a laser focus on getting sales results. No other frills and upsells - just pure, value-adding online sales marketing that works.

Worth the initial investment - we're approaching 3 months now and the media budget and agency fees already pay for itself, with a strong growth trajectory going forward.
